INDEPENDENT AUDITOR'S REPORT

To the Board of Education of
Shiawassee Regional Educational Service District

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Shiawassee Regional Educational Service District, as of and for the year ended June 30, 2008, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Shiawassee Regional Educational Service District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Shiawassee Regional Educational Service District as of June 30, 2008, and respective changes in financial position thereof and the respective budgetary comparison for the General Fund and the Special Education Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report under separate cover dated September 8, 2008 on our consideration of the Shiawassee Regional Educational Service District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

The management's discussion and analysis information on pages II - IX, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Shiawassee Regional Educational Service District's basic financial statements. The additional information on pages 20 - 29 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The additional information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

The Management Discussion and Analysis, a requirement of GASB 34, is intended to be the Shiawassee Regional Education Service District's (SRES) administration's discussion and analysis of the financial results for the fiscal year ended June 30, 2008.

Generally accepted accounting principles (GAAP) according to GASB 34 requires the reporting of two types of financial statements: District Wide Financial Statements and Fund Financial Statements.

Fund Financial Statements:

The School District's fund financial statements provide detailed information about the most significant funds – not the School District as a whole. Some funds are required to be established by State law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Special Education is an example) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental funds – All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds in a reconciliation.

In the fund financial statements, purchased capital assets are reported as expenditures in the year of acquisition. No asset is reported. The issuance of debt is recorded as a financial resource. The current year's payments of principal and interest on long term obligations are recorded as expenditures. Future year's debt obligations are not recorded.

District Wide Financial Statements:

The District wide financial statements are full accrual basis statements. They report all of the District's assets and liabilities, both short and long term, regardless if they are "currently available" or not. For example, assets that are restricted for use in the Debt Funds solely for the payment of long term principal or interest are grouped with unrestricted assets of the General Fund. Capital assets and obligations of the District are reported in the Statement of Net Assets of the District wide financial statements.

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net assets and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

District Wide Financial Statements: (Continued)

These two statements report the Shiawassee Regional Educational Service District net assets – the difference between assets and liabilities, as reported in the statement of net assets – as one way to measure the School District’s financial health or financial position. Over time, increases or decreases in the School District’s net assets – as reported in the statement of activities – are indicators of whether its financial health is improving or deteriorating. The relationship between revenues and expenses is the School District’s operating results. However, the School District’s goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net assets and the statement of activities report the governmental activities for the School District, which encompasses all of the School District’s services, including instruction and support services. Property taxes, unrestricted State aid, and State and federal grants finance most of these activities.

The School District as Trustee – Reporting the School District’s Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity funds. All of the School District’s fiduciary activities are reported in a separate statement of fiduciary net assets. We exclude these activities from the School District’s other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

GOVERNMENT- WIDE FINANCIAL ANALYSIS

Analysis of Financial Position:

During the year ended June 30, 2008, the District's Total Net Assets increased by \$1,509,214 to a total of \$13,723,107. The largest portion of the net assets are the District's investment in capital assets. Net assets (invested in capital assets, net of related debt) decreased by \$47,417 due to depreciation exceeding the purchase of new capital assets and principal payments on related debt. The District's Unrestricted Net Assets increased by \$1,556,631 during the year. The restricted capital projects fund may only be used to fund capital projects. The unrestricted net assets may be used to fund the educational services provided to students.

Analysis of Results of Operations

The total revenues increased by \$2,736,204 over last year's amounts. The major changes were increases in property tax revenue, increases in state aid and federal grants. Expenditures increased by \$1,372,679 over last year. Major changes were due to increased operational utility costs, increased transportation fuel costs, implementation of the power schools program, increases in staff salaries, the use of contracted services consulting in Special Education and Transportation. Additionally, over \$900,000 was used for facility updates and improvements using Capital Project funds.

FINANCIAL ANALYSIS OF GOVERNMENT'S FUNDS – GOVERNMENTAL FUNDS

Analysis of Financial Position

The focus of the District's governmental funds is to provide information on near term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the district's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a governments net resources available for spending at the end of the fiscal year. An analysis of changes for the governmental funds is as follows:

General Fund

The district's general fund is the chief operating fund of the district. Unreserved fund balance for the general fund decreased by \$7,935 during the year with the increase coming primarily from an increase in cash.. Revenue and other financing sources for the year increased by \$187,462 over the prior year, due primarily from additional federal grants and transfers from other districts. Expenditures and other financing uses decreased by \$383,863 over the prior year, due to a reduction in retirement costs, a reduction in insurance premiums, and a greater effort by all departments to reduce spending .

1. State of Michigan Aid (Section 81)

The State of Michigan aid provided under Section 81 of the State Aid Act provides the majority of state aid to the District's General Fund. Funding to the District under Section 81 is provided to comply with the requirements of the State Aid Act and to provide technical assistance to local districts as authorized by the intermediate school board. Funding under Section 81 was \$1,032,245 for the fiscal year a decrease of \$53 over the previous year.

2. Property Taxes Levied For General Operations (General Fund Homestead and Non-Homestead Taxes)

The District levies .2238 mills of property taxes for operations (General Fund) on Homestead and Non-Homestead Properties. Under Michigan law, the taxable levy is based on the taxable valuation of properties. Annually, the taxable valuation increase in property values is capped at the rate of the prior year's CPI increase or 5 percent, whichever is less. At the time of sale, a property's taxable valuation is readjusted to the State Equalized Value, which is, theoretically, 50 percent of the market value.

The District's property tax revenue for the 2007-2008 fiscal year was \$447,734, an increase of \$26,262 from the prior year.

Analysis of Financial Position (Continued)

Special Education Fund

Unreserved fund balance for the special education fund increased by \$1,605,530 during the year with the increase coming primarily from an increase in cash. Revenue and other financing sources for the year increased by \$2,609,177 primarily from a increases in property taxes, state aid and federal funds. Expenditures and other financing uses increased by \$514,138, primarily in the areas of increased employee salaries and an internal transfer for capital project improvements. The major source of special education revenue is from state aid and local taxes. An analysis of them is as follows:

1. State of Michigan Aid (Section 51)

The State of Michigan aid provided under Section 51 of the State Aid Act provides the majority of state aid to the District's Special Education Fund. Funding to the District under Section 51 is provided to reimburse the District for unreimbursed costs of special education programs, services and special education personnel. Funding under Section 51 was \$1,617,752 for the fiscal year an increase of \$18,317 from the previous year due to an increase in Federal IDEA dollars that support special education programs.

2. Property Taxes Levied For General Operations (Special Education Fund Non-Homestead Taxes)

The District levies 3.6802 mills of property taxes for operations (Special Education Fund) on Non-Homestead Properties. Under Michigan law, the taxable levy is based on the taxable valuation of properties. Annually, the taxable valuation increase in property values is capped at the rate of the prior year's CPI increase or 5 percent, whichever is less. At the time of sale, a property's taxable valuation is readjusted to the State Equalized Value, which is, theoretically, 50 percent of the market value.

The District's property tax revenue for the 2007-2008 fiscal year was \$7,362,605. An increase of \$429,163 from the prior year.

BUDGETARY HIGHLIGHTS:

Original vs. Final Budgets

Revenues

Federal Income increased with additional funds for the enhancing education through technology grant, and incoming transfers from other school districts and special education funds.

Expenditures

Early childhood education and continuing education programs increased as well as instructional services and central services which both include a variety of technology projects, programs and training.

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

BUDGETARY HIGHLIGHTS (Continued):

Actual Results vs. Final Budgets

Revenues

Federal funds for the enhancing education for technology were over budgeted by approximately \$46,000 and incoming transfers were lower than anticipated.

Expenditures

All departments made a conscious effort to reduce spending and it was evident as almost every expense category did not expend their entire budgeted amount. Pupil services, which includes; early childhood programs, career initiated and tech. prep. programs reduced spending by approximately \$88,000. Instructional services, particularly media, sites, computer technology and the assessment and gifted programs were able to save approximately \$110,000. Operation and maintenance and central services each saved \$22,000 respectively.

SPECIAL EDUCATION FUND BUDGET VS. ACTUAL

	Original Budget	Final Budget	Actual	Variance Original & Final Budget %	Variance Actual & Final Budget %
Revenue	\$16,682,305	\$18,523,000	\$18,773,807	11.03	1.35
Expenditures	16,802,010	18,056,520	17,168,277	7.47	(4.92)
<u>TOTAL</u>	<u>(\$119,705)</u>	<u>\$466,480</u>	<u>\$1,605,530</u>		

Original vs. Final Budgets

Revenues

Increased local revenue included carryover funds for the MSRP program through Baker College as well as additional property tax revenue, State Revenue increased significantly with an adjustment made to prior year special education program revenues, Federal grant funds increased as well as incoming transfers from other school districts.

Expenditures

Increased Federal Funds expenditures for the IDEA flow-through grant, additional funds in special projects with two additional small grants, pupil transportation increased with the purchase of new buses, as well as additional program expenses with the Department of Human Services parent support grant. There were also significant increases in outgoing transfers to local school districts and \$400,000 was reserved for future years' capital projects.

Actual Results vs. Final Budgets

Revenues

Additional Medicaid and state aid revenues were received on June 30, 2008 which increased the amount of revenue that was budgeted.

Expenditures

Budgeted expenditures were not recognized in almost every program category due to diligent efforts to reduce expenses.

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

ANALYSIS OF BUDGETS:

The Uniform Budget Act of the State of Michigan requires that the local Board of Education approve the original budget for the upcoming fiscal year prior to July 1, the start of the fiscal year.

As a matter of practice, Shiawassee Regional Educational Service District amends its budget during the school year. The June, 2008 budget amendment was the final budget for the fiscal year.

CAPITAL ASSET AND DEBT ADMINISTRATION

A. Debt, Principal Payments

The District made principal payments on bonded, long term debt obligations that reduced the amount of the District's long term liabilities as follows:

	Principal Balance 7-01-07	Increases 6-30-08	Principal Payments 6-30-08	Principal Balance 6-30-08
Durant Bonds	\$940,309	\$0	\$0	\$940,309
Installment Contract	319,019	0	12,657	306,362
Vacation & Sick Days Payable	52,339	40,963	0	93,302
<u>Total Long-Term Obligations</u>	<u>\$1,311,667</u>	<u>\$40,963</u>	<u>\$12,657</u>	<u>\$1,339,973</u>

B. Capital Assets

The district's net investment in capital assets increased by \$848,694 during the fiscal year. This can be summarized as follows:

	Balance 7-1-07	Additions	Deductions	Balance 6-30-08
Capital Assets	\$7,543,888	\$1,704,005	\$940,782	\$8,307,111
Less: Accumulated Depreciation	(3,094,563)	(396,071)	(481,542)	(3,009,092)
<u>Net Investment Capital Outlay</u>	<u>\$4,449,325</u>	<u>\$1,307,934</u>	<u>\$459,240</u>	<u>\$5,298,019</u>

Significant additions were the addition of the North Street Building and the purchase of 3 buses.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

* Foundation Allowance

The Board of Education and Administration agreed to an estimate of a foundation allowance of \$7,316 per pupil for the 08-09 fiscal year based on information received from various educational organizations such as Michigan Association of School Business Officials, Michigan Association of School Administrators, and the Michigan Association of School Boards as well as discussions local state representatives. The political debate regarding the funding of public education, the current economic climate in the State of Michigan and the gubernatorial election will all affect this estimate before the final foundation allowance is known.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET (Continued)

* Retirement Rates

The continuing cost of health insurance to current and potential retirees continues to drive the rate increases the Michigan School Personnel Retirement System recommends to the legislature for approval. The rate is anticipated to decrease to 16.54% in 08-09 from 16.72% in 07-08. The forecast is based on actuarial assumptions.

* The Shiawassee Regional Educational Service District's 2008-2009 adopted budget is as follows:

	<u>General</u>	<u>Special Ed</u>	<u>Total</u>
<u>REVENUE</u>	\$4,707,181	\$17,262,000	\$21,969,181

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

1) REPORTING ENTITY

The accompanying basic financial statements have been prepared in accordance with criteria established by the GASB for determining the various governmental organizations to be included in the reporting entity. These criteria include oversight responsibility, scope of public service, and special financing arrangements. Based on application of the criteria, the entity does not contain component units.

The District receives funding from local, state, federal and interdistrict government sources and must comply with the accompanying requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity" body that has separate legal standing and is fiscally independent of the governmental entities. As such, the Board of Education has decision-making authority, the authority to levy taxes, and determine its budget, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters.

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Shiawassee Regional Educational Service District conform to generally accepted accounting principles as applicable to school districts. The following is a summary of the significant accounting policies:

In June 1999 the Governmental Accounting Standards Board (GASB) issued Statement No. 34, Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments. Certain of the significant changes in the Statement include the following:

A Management Discussion and Analysis (MD&A) section to provide an analysis of the District’s overall financial position and results of operations.

Financial statements prepared with full accrual accounting for all of the District’s activities.

- A change in the fund financial statements to focus on the major funds.

These and other changes are reflected in the accompanying financial statements and notes to the financial statements.

A) BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS

The District’s basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District’s major funds). The government-wide financial statements categorize primary activities as either governmental or business type. All of the District’s activities are classified as governmental activities. Fiduciary funds are not included in the government-wide financial statements.

In the government-wide Statement of Net Assets, the governmental activities column is presented on a consolidated basis and is reported on a full-accrual economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District’s net assets are reported in three parts: invested in capital assets net of related debt; restricted net assets; and unrestricted net assets. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District’s functions. General government revenues also support the functions. The Statement of Activities reduces gross expenses by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary grants. The net costs by function are normally covered by general revenue (property taxes, state and federal sources, interest income, etc.).

The District does not allocate indirect costs. Inter-fund transactions have been eliminated in the government-wide financial statements.

FOR THE YEAR ENDED JUNE 30, 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B) BASIC FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the general-purpose financial statements in this report, into five generic fund types in two broad fund categories as follows:

Governmental Funds

Governmental funds are those funds through which most school district functions typically are financed. The acquisition, use, and balances of the District's expendable financial resources and the related current liabilities are accounted for through governmental funds.

General Fund

The General Fund is used to record the general operations of the District pertaining to education and those operations not provided for in other funds. Included are all transactions related to the approved current operating budget.

Special Education Fund – The special education fund is used to account for financial resources to be used specifically for providing special education services to students within the School District.

Debt Retirement Fund

The Debt Retirement Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Capital Projects Fund

The Capital Projects Fund is used to account for the acquisition and construction of major facilities by the School District.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The District's fiduciary funds consist of agency funds which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The agency funds are used to account for amount held for student and employee groups.

C) BASIS OF ACCOUNTING/MEASUREMENT FOCUS

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Accrual

Governmental activity in the government-wide financial statements is presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C) BASIS OF ACCOUNTING/MEASUREMENT FOCUS (Continued)

Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt is recognized when due.

Those revenues susceptible to accrual are property taxes, state aid, interest revenue, grants and charges for services. Other revenue is recorded when received.

The District reports deferred revenue on its governmental funds balance sheet. Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when the District receives resources before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

D) CASH AND CASH EQUIVALENTS

Cash and cash equivalents include amounts in demand deposits and certificates of deposit.

The District reports its investments in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* and No. 40 *Deposits and Investment Risk Disclosures*. Under these standards, certain investments are valued at fair value as determined by quoted market prices, or by estimated fair values when quoted market prices are not available. The standards also provide that certain investments are valued at cost (or amortized cost) when they are of a short-term duration, the rate of return is fixed, and the district intends to hold the investment until maturity. Accordingly, investments in banker acceptances and commercial paper are recorded at amortized cost.

State statutes authorize the District to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury, certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by no less than two standard rating services and which matures not more than 270 days after the date of purchase. The District is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

E) PREPAID ASSETS

Payments made to vendors for services that will benefit periods beyond June 30, 2008, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F) INVENTORY

On government-wide financial statements are stated at cost and are expensed when used.

On fund financial statements inventories are stated at cost. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased.

G) CAPITAL ASSETS

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) using a \$5,000 capitalization threshold and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of one hundred dollars. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an assets life are not. Interest incurred during the construction of capital assets is also capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Buildings and Improvements	20 – 50 years
Furniture and Equipment	5 – 10 years
Vehicles and Buses	5 years

H) INTERFUND BALANCES

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables.” These amounts are eliminated in the governmental activities columns of the statement of net assets.

I) COMPENSATED ABSENCES

The School District reports compensated absences in accordance with the provisions of GASB Statement No. 16, “Accounting for Compensated Absences.” Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the School District’s past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts, if any, are recorded in the account “compensated absences payable” in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J) ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, the noncurrent portion of capital leases, compensated absences, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

K) FUND BALANCE RESERVES

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods.

L) NET ASSETS

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

M) ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

N) BUDGETARY DATA

The budgetary process is prescribed by provisions of the State of Michigan Budget Act and entails the preparation of budgetary documents within an established timetable. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the function level. Any budgetary modifications may only be made by resolution of the Board of Education.

The School District follows these procedures in establishing the budgets for the individual funds as reflected in the financial statements.

- 1) Prior to June 30, the Superintendent submits to the School Board a proposed operating budget for the fiscal year commencing on July 1.
- 2) A public hearing is conducted during June to obtain taxpayer comments.
- 3) Prior to June 30, the budget is legally enacted through passage of a resolution.

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N) BUDGETARY DATA (Continued)

- 4) For purposes of meeting emergency needs of the School District, transfer of appropriations may be made by the authorization of the Superintendent. Such transfers of appropriations must be approved by the Board of Education at its next regularly scheduled meeting.
- 5) The School Superintendent is charged with general supervision of the budget and shall hold the department heads responsible for performance of their responsibilities.
- 6) During the year the budget is monitored, and amendments to the budget resolution are made when deemed necessary.

3) STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY – BUDGET VIOLATIONS

1968 PA 2 provides that a local unit shall not incur expenditures in excess of the amount appropriated.

In the body of the financial statements, the School District's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. The approved budgets of the School District for these budgetary funds were adopted to the functional level.

During the year ended June 30, 2008, the School incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated.

4) DEPOSITS AND INVESTMENTS

As of June 30, 2008, the District had the following investments.

<u>Investment Type</u>	<u>Fair value</u>	<u>Weighted Average Maturity (Years)</u>	<u>Standard & Poor's Rating</u>	<u>%</u>
MILAF External Investment Pool - MIMAX	<u>\$654,878</u>	<u>0.0027</u>	AAAm	<u>100.00%</u>

1 day maturity equals 0.0027, one year equals 1.00.

Interest rate risk. In accordance with its investment policy, the District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the District's cash requirements.

Credit risk. State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSROs). As of June 30, 2008, the District's investment in the investment pool was rated AAA by Standards & Poor's and AAA by Moody's Investors Service.

Concentration of credit risk. The District will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the District's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. More than 5% of the District's investments are in pooled investment accounts which represents 100% of the District's total investments.

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

4) DEPOSITS AND INVESTMENTS (Continued)

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2008, \$11,298,916 of the District's bank balance of \$11,600,366 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The District will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities allowed by law; and pre-qualifying the financial institutions, broker/dealers, intermediaries and advisors with which the District will do business.

Foreign currency risk. The District is not authorized to invest in investments which have this type of risk.

The above amounts as previously report in Note 4:

Deposits – Including Fiduciary Funds of \$9,234	\$ 10,544,698
Investments	<u>654,878</u>
<u>TOTAL</u>	<u>\$ 11,199,576</u>

The above amounts are reported in the financial statements as follows:

Cash Agency Fund	\$ 9,234
Cash – District Wide	10,535,464
Investments – District Wide	<u>654,878</u>
<u>TOTAL</u>	<u>\$ 11,199,576</u>

5) PROPERTY TAXES

The School District levies its property taxes on December 1 and various municipalities collect its property taxes and remit them to the District through February. The delinquent real property taxes of the District are purchased by the County, and delinquent personal property taxes continue to be collected by the municipalities and recorded as revenue as they are collected. The county sells tax notes, the proceeds of which have been used to pay the District for these delinquent real property taxes. These delinquent real property taxes have been recorded as revenue in the current year.

6) RECEIVABLES

Receivables at June 30, 2008, consist of taxes, accounts (fees), intergovernmental grants and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables (due from other governmental units) follows:

<u>GOVERNMENTAL ACTIVITIES</u>	<u>AMOUNT</u>
State Aid	\$ 1,224,878
Federal Grants	45,505
Other	<u>647</u>
<u>TOTAL GOVERNMENTAL ACTIVITIES</u>	<u>\$ 1,271,030</u>

7) UNEMPLOYMENT COMPENSATION

The District is subject to the Michigan Employment Security Act and has elected the reimbursement method of financing. Under this method, the District must reimburse the Employment Commission for all benefits charged against the District for the year. As of June 30, 2008, the School District had estimated claims of \$268 in conjunction with the program.

8) SHORT-TERM DEBT

The District has various options for short-term financing including tax anticipation notes, state aid anticipation notes and lines of credit. The District entered into no short-term financing arrangements during the fiscal year ended June 30, 2008.

9) CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2008, was as follows:

10) **SELF INSURANCE POOL**

The School District participates in a public entity risk pool (self-insurance pool) for its workers' compensation, property and casualty, general liability, and boiler insurance. The pool is through the MASB/SET/SEG and is administered by Corporate Services. The pool provides for reinsurance by various insurance companies at various levels, depending on the coverage. Should the pool experience significant losses in the aggregate, the School District may be required to pay additional monies to the pool. At present, the MASB/SET/SEG has not required additional funds, but rather has issued refunds based on experience gains over experience losses over the last few years. Premiums for the year ended June 30, 2008 were \$74,402 and the School District received a dividend refund of \$8,163.

11) **GENERAL LONG-TERM DEBT**

A) **Durant Resolution Package Bonds**

Shiawassee Regional Educational Service District issued Durant Resolution Bonds on November 24, 1998 in the amount of \$2,106,774 at the interest rate of 4.7613%. The bonds are a legal obligation of the school district but the annual State of Michigan appropriation is the only revenue source for making the annual debt service payments on the bonds. If the legislature fails to appropriate the bonds, the district is under no obligation for payment. The balance at June 30, 2008 was \$940,309.

B) **Installment Contract**

Shiawassee Regional Educational Service District is indebted to Robert L. Roty, MD in the amount of \$325,000 for the purchase of the North Street building. The note requires monthly payments of \$3,013 including interest at 7.5% per annum. The note matures December, 2021. The balance at June 30, 2008 was \$306,362.

C) **Annual Principal Requirements**

The annual principal requirements for all debts outstanding as of June 30, 2008 are as follows:

	BONDS PAYABLE	INSTALLMENT CONTRACT	INTEREST	TOTAL

TRANSFERS TO	TRANSFERS FROM	
		SPECIAL
		EDUCATION
		<u>FUND</u>
General Fund		<u>\$713,400</u>

The transfers are reimbursements to the general fund from the special education fund for overhead costs that are calculated annually and approved by the board.

15) DEFINED BENEFIT PENSION PLAN

Plan Description

The School District participates in the Michigan Public School Employees' Retirement System (MPSERS), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. The MPSERS provides retirement, survivor and disability benefits to plan members and their beneficiaries. The MPSERS issues a publicly available financial report that includes financial statements and required supplementary information for the MPSERS. That report may be obtained by writing to the MPSERS at 7150 Harris Drive, PO Box 30673, Lansing, MI 48909-8103.

Funding Policy

Employer contributions to the MPSERS result from the implementing effects of the School Finance Reform Act. Under these procedures, each school district is required to contribute the full actuarial funding contribution amount to fund pension benefits, plus an additional amount to fund retiree health care benefit amounts on a cash disbursement basis. The pension benefit rate totals 17.74 percent for the period July 1, 2007 through September 30, 2007 and 16.72 percent for the period October 1, 2007 through June 30, 2008 of the covered payroll to the plan. Basic plan members make no contributions, but contribute to a member investment plan (MIP) at rates ranging from 3 percent to 4.3 percent of gross wages. The School District's contributions to the MPSERS pension plan for the years ended June 30, 2008, 2007 and 2006 were \$1,596,778, \$1,572,615 and \$1,443,251, respectively.

Postemployment Benefits

Under the MPSERS Act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental and vision coverage. Retirees having these coverages contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental and vision coverages. Required contributions for postemployment health care benefits are included as part of the School District's total contribution to the MPSERS pension plan discussed above.

16) RISK MANAGEMENT

The District is exposed to various risks of loss in conducting its operations, from property and casualty theft, damage to various tort and liability claims and workman's compensation claims. The District limits its exposure to such claims through its participation in and payments of premiums to SET-SEG, Inc. Insurance Trust. This pool maintains a loss fund and is also required by the terms of the participation agreement to obtain insurance and reinsurance as necessary.

SHIAWASSEE REGIONAL EDUCATIONAL SERVICE DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

16) RISK MANAGEMENT (Continued)

The terms of the participation agreement with the pool indicate that, should losses of the pool incurred in a given coverage period exceed the loss fund and the aggregate excess reinsurance, the fund may access its member districts on a pro-rata basis to cover excess losses. In past years the loss fund has exceeded the amount necessary to maintain prudent loss reserves, resulting in annual premium refunds to member districts. The District's management believes that participation in this pool provides sufficient coverage to protect the District from any significant adverse financial impact.

17) CONTINGENCIES AND COMMITMENTS

The District participates in a number of federally assisted grant programs, principal of which are the Special Education Cluster Grants. These programs are subject to program compliance audits. The audit of these programs for and including the year ended June 30, 2008, have been conducted and have been reported in this audit report. However, the compliance audit reports have not yet been accepted by the grantors. The amount, if any, of expenditures which may be disallowed by the grantor agencies cannot be determined at this time; although the District expects such amounts, if any, to be immaterial.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Education of
Shiawassee Regional Educational Service District

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Shiawassee Regional Educational Service District, as of and for the year ended June 30, 2008, which collectively comprise the Shiawassee Regional Educational Service District's basic financial statements and have issued our report thereon dated September 8, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Shiawassee Regional Educational Service District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Shiawassee Regional Educational Service District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Shiawassee Regional Educational Service District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Shiawassee Regional Educational Service District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Shiawassee Regional Educational Service District's financial statements that is more than inconsequential will not be prevented or detected by the Shiawassee Regional Educational Service District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Shiawassee Regional Educational Service District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Shiawassee Regional Educational Service District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the finance committee, Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A-133**

To the Board of Education of
Shiawassee Regional Educational Service District

Compliance

We have audited the compliance of Shiawassee Regional Educational Service District with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. Shiawassee Regional Educational Service District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Shiawassee Regional Educational Service District's management. Our responsibility is to express an opinion on Shiawassee Regional Educational Service District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Shiawassee Regional Educational Service District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Shiawassee Regional Educational Service District's compliance with those requirements.

In our opinion, Shiawassee Regional Educational Service District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The management of Shiawassee Regional Educational Service District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Shiawassee Regional Educational Service District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Shiawassee Regional Educational Service District's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Shiawassee Regional Educational Service District, as of and for the year ended June 30, 2008, and have issued our report thereon dated September 8, 2008. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Shiawassee Regional Educational Service District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the finance committee, management, Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
